Choose one producer or engineer from the book Behind the Glass. Do a Google search on the person you have chosen and the artists they have worked with. Find at least 5 records they have made and listen to them. Take notes.

In two weeks, turn in a discography of those 5 records, with a short explanation of what you learned from listening to each of the 5 records.

Due in Class Oct 16th

Must be typed in 14 point font
One page only!
